Cc: Claire Lee <claire.lee@cern.ch>, Mark Charles Kruse <mkruse@phy.duke.edu>, Giordon Holtsberg Stark <giordon.holtsberg.stark@cern.ch>, Daniel Whiteson <whiteson@cern.ch>, Srinir Rajagopalan <srinir@bnl.gov>, Christopher Bee <christopher.bee@stonybrook.edu>

Dear Colleagues,

The term of office of Mark Kruse (Duke) as US-ATLAS Education and Public Outreach (EPO) Coordinator will shortly end and we would like to solicit nominations for **two US-ATLAS EPO co-coordinator positions starting 1 June 2020**.

This request supersedes a previous solicitation over a year ago, due to how this position has evolved in that time to include a significant HL-LHC component, as described below. The terms of each position are for two years, with reappointments based on mutual considerations.

A description of the charge and responsibilities for the US-ATLAS EPO Co-coordinator positions are appended below. For both positions there will be sufficient overlap with the current EPO Coordinator to understand their respective charges, responsibilities, and the status of ongoing projects and plans.

A search committee consisting of Mark Kruse (Duke, chair), Claire Lee (BNL), Giordon Stark (UCSC) and, Daniel Whiteson (UCI), will evaluate the US-ATLAS collaboration's feedback. The search committee will recommend a shortlist of willing candidates to the US-ATLAS Operations Program Managers (OPMs) in early April.

Please send your nominations and feedback to the search committee by Monday 16 March 2020.

Self-nominations are entirely acceptable and encouraged. In addition please feel free to contact the committee with any further questions concerning these positions.

Kind regards,

Mark Kruse, Claire Lee, Giordon Stark, Daniel Whiteson
(mkruse@phy.duke.edu, claire.lee@cern.ch, gstark@cern.ch, daniel@uci.edu)
