Good news! The Faculty Board was so impressed with the package of student taught courses that a motion to approve all of them passed easily. Regis is being updated so students can register, and an announcement is going out tomorrow to the undergrads. The descriptions will be up on the Dean's website tomorrow morning. This is the final term before the program is reviewed in the fall, so we hope to have a good enrollment. Spread the word.

Also, if you haven't been through the TA training, which is required for all instructors, make an appointment to do this in the Graduate Dean's Office. It is an on-line session. You can contact Natalia Gilmore or Icy Ma to arrange a time.
